Abstract (en)
[origin: EP1108413A2] Blister pack for pharmaceutical tablets or capsules is contained in a cardboard sheet (4) which is folded over to form a top (6) and bottom (5) layer with the blister pack between. The blisters (3) protrude through openings (8) in the top sheet and the tablets can be pressed out through corresponding holes (9) in the bottom sheet. Independent claims are also included for: (1) use of the cardboard sheet for producing a blister pack containing a predetermined number of tablets or capsules; and (2) a blister pack containing a predetermined number of tablets or capsules.
