Abstract (en)

[origin: EP1108484A1] Apparatus for changing the size of the casting strand in a continuous casting plant comprises an adjusting device equipped with positioning or power regulation devices. An Independent claim is also included for a process for changing the size of the casting strand in a continuous casting plant. Preferred Features: The casting strand is adjusted to a length of 1-4 m at the start and adjusted to a length of 0.5-2 m at its end.
