Abstract (en)

The invention relates to a method of manufacturing a roll of self-opening plastic bags (10), comprising the steps of forming a fully gusseted tubular bag, folding the web to form a multi-layer, star-sealed web, forming a series of weld lines (12) and separation lines (14) in a star-sealed web to separate it into a multiplicity of individual bags, at least partially opening the separation lines (14) in one of the outer layers of the multi-layer star-sealed configuration, and rolling the web into a roll (16). <IMAGE>
