Abstract (en)

The U-shaped plastic trestle is designed to hold garbage bags in the open position. It is composed of a bottom (f) with two ribs (g1,g2) on which the bag rests. Two walls (a1,a2) have four ribs (d1,d2,d3,d4) acting as a spring lever. For ears (b1,b2,b3,b4) have two ribs (e1,e2) engaged in the two handles of the bag. Eight notches (c1 to c8) retain the bag and four holes (h1,h2,h3,h4) enable the trestle to be hung from a hook.
