Abstract (en)  
[origin: WO9962697A1] The present invention relates to a package or container (01) having desiccating abilities. The package or container (01) includes an insert (200) in the shape of a plug, film, sheet or pellet having desiccating abilities that is included in the package or container (01). Alternatively, the insert (200) may be molded within the body (12) of the package or container. The insert (200) is formed by blending a desiccant and thermoplastic.
