Abstract (en)
[origin: EP1113119A2] The tile has a plate section (4) with folds at the sides which provide a water-proof connection surface and a cover surface for adjoining tiles. A hanger nose is provided on the rear side which projects away from the support plane of the tile. The tile has a plate section (4) with folds at the sides which provide a water-proof connection surface and a cover surface for adjoining tiles. A hanger nose is provided on the rear side which projects away from the support plane of the tile. Ridges are provided on the back of the plate section which are designed to provide extra strength to the tile. A foot region (9) on one end of the tile is bent in the direction of the under side of the tile. The edge (10) of the foot region lies in the same plane as the plane of the support surface of the tile.
