Abstract (en)

[origin: EP1113138A2] The drive casing has a base casing (7), containing a rail for the movable door or one or more rollers. An inset or drive casing (23) is provided, for a drive unit with a transmission unit to drive the door. The base casing or an assigned casing section and the drive casing or an assigned casing section are arranged vertically one on top of the other. Preferably the drive casing is above the base casing.
