Abstract (en)

[origin: EP1114594A2] The lipstick has a base (2) with a transparent section (16) containing a chamber (24) for a sample. A central tube (4) is connected by an annular section (5) to the base and is closed at the top by the mechanism (25) which pushes the lipstick upwards ready for use. An Independent claim is included for a method for making the lipstick.
