Abstract (en)

[origin: EP1114911A1] The dust guard comprises a wall(100) intended to close each of the lateral ends (402) of a roller shutter tunnel casing (400). The wall remains protruding relative to the casing lateral end after installing the dust guard. On the wall are ribs (340) and pins enabling its fixing with the construction elements of the masonry (M) positioned facing the dust cover.
