Abstract (en)

[origin: WO0105274A1] The invention concerns a comb (1) for applying a product on keratinous fibres, comprising an arrangement of teeth (2a, 3a) for applying said product. The invention is characterised in that said arrangement of teeth is obtained by assembling at least two separate parts (2, 3). The invention also concerns an application set equipped with such a comb (1), and its use for applying make-up on eyelashes or eyebrows.
