Abstract (en)

[origin: FR2783709A1] The invention concerns a cosmetic composition designed to be applied on the hair, comprising, in a cosmetically acceptable medium, at least a film-forming linear or branched polymer obtainable by a process comprising homopolymerisation or a (co)polymerisation of at least a hydroxystyrene monomer, one of its precursors or one of its salts, said composition further comprising at least another film-forming polymer. The invention also concerns a hairstyling or hair fixing method using said composition and its use for formulating hairdressing products such as lacquers, sprays or foams, for hair fixing or styling.
