Abstract (en)
[origin: WO0073025A2] The invention concerns a coffer for casting cementitious slabs which is deep drawn from suitable steel slab to form a recess with a reinforced peripheral flange extending from the edge of the recess. The corners are supported by triangular brackets.
[origin: WO0073025A2] The invention concerns a coffer (1) for casting cementitious slabs which is deep drawn from suitable steel slab to form a recess (2) with a reinforced peripheral flange (4) extending from the edge of the recess (2). The corners are supported by triangular brackets (9).
