Abstract (en)
[origin: WO0017370A1] The present invention relates to the identification and use of a family of human complement C3-degrading polypeptides expressed by S.pneumoniae. The polypeptides have molecular weights of about 15 kD to about 25 kD or about 75 kDa to about 95 kDa, for example. Preferred polypeptides of this invention include the amino acid sequences of SEQ ID NO:2 and SEQ ID NO:5.
