Abstract (en)
[origin: WO0019156A1] An adsorbent package (20) for use in an air conditioning accumulator (2) or receiver dryer of the type having a refrigerant fluid flow tube (9) disposed therein wherein the tube has a first end (80) having a first diameter and a lengthwise adjacent portion (82) having a second larger diameter. The adsorbent package includes a tube engaging portion (52) sized to slidably receive the first end of the tube therein and frictionally engage the lengthwise adjacent tube portion. In one embodiment, the tube engaging portion comprises an annularly shaped rigid zone (62).
