Abstract (en)

[origin: DE19846493A1] A DNA sequence (I) whose expression products effect or are involved in the enzymatic biosynthesis, mutasynthesis or partial synthesis of polyketide or heteropolyketide compounds (II) is new. Independent claims are also included for the following: (1) a recombinant expression vector containing (I); (2) a prokaryotic or eukaryotic cell transformed or transfected with (I) or the vector of (1); (3) a process for the enzymatic biosynthesis, mutasynthesis or partial synthesis of (II), comprising culturing the cell of (2) in a culture medium and isolating (II) from the medium.
