Abstract (en)
[origin: US6408457B1] What is described is a bathroom unit, in particular in the form of a shower unit (2), comprising a shower tub (12) and a shower unit wall provided with a door (18). A heating device (26), for instance in the form of a rung radiator (28), extends over at least a partial section of the shower unit wall. The shower unit wall may comprise in the region of the heating device (26) an additional door (20) which opens to the interior of the shower unit. The doors (18, 20) preferably are sliding doors.
