Abstract (en)
[origin: DE10001482A1] The filler element (1) at least one gas path formed by a gas channel in the housing and a gas channel provided in an interchangeable insert (5) of a first type having gas flow control elements whilst an insert (5a) of a second type is also provided which does not have gas flow control elements but can be used on the filler element in place of the first insert. The inserts can be swivelled in and out of a functioning position.
