Abstract (en)

[origin: US2001043935A1] Processes for treatment of at least one condition chosen from seborrhoea of the skin and scalp, disorders associated with seborrhoea, and disorders associated with microorganisms of the genus Propionibacterium comprising applying to an area in need of said treatment at least one compound chosen from certain polyamino acid derivatives. Processes for the manufacture of a composition for treatment of at least one condition chosen from seborrhoea of the skin and scalp, disorders associated with seborrhoea, and disorders associated with microorganisms of the genus Propionibacterium, said process comprising including in said composition at least one certain polyamino acid derivative. Anti-seborrheic and anti-acne compositions comprising at least one certain polyamino acid derivative.

Abstract (fr)

La présente demande concerne l'utilisation de dérivés de polyaminoacides de formule (I), dans une composition cosmétique ou pharmaceutique, notamment dermatologique, pour traiter la séborrhée et les désordres cutanés qui lui sont associés. <IMAGE>
