Abstract (en)

A process for the realization of structural and/or decorative elements for the building field, internal fittings, town-fittings, such as panels, partitions, door and window frames, false ceilings and the like, having one- or multi-color decorations, said process consisting in the transfer and incorporation in a plaster layer coated on a backing from rigid or semi-rigid material of a sublimable color decoration, employing the transfer decoration technique. A variously decorated structural and/or decorative element for the building field, fittings and the like, such as panels, partitions, false ceilings and the like, comprising a backing in the form of a slab, a section or the like, comprising a hardened plaster layer coated on the surface of said backing or a part of said surface, and a one- or multi-color decoration realized on said plaster layer by means of sublimable colors.
