Abstract (en)

[origin: EP1128510A2] An operating panel for an electrical domestic apparatus, preferably an electric oven, has a frame part (1) on which are fastened on the rear side (2), a circuit board (4) equipped with operating, control, switching and/or display elements for the domestic apparatus and on the front side, a decorative panel so that the operating elements (6,7) project through the frame part and through cut-outs in the decorative panel. The operating, control, switching and/or display elements are wired together on the circuit board and a single multi-wire cable or a cable tree is provided for the electrical connection of the operating panel to the domestic apparatus.
