Abstract (en)

[origin: WO0027862A1] The present invention relates to rhesus monkey DNA molecules encoding the melanocortin-3 receptor protein, recombinant vectors comprising DNA molecules encoding rhesus MC-3R, recombinant host cells which contain a recombinant vectors encoding rhesus MC-3R, the rhesus MC-3R protein encoded by the DNA molecule, and methods of identifying selective agonists and antagonists of rhesus MC-3R.
