Abstract (en)

[origin: EP1129946A1] The device for banding packed goods has at least one stiffening device (44) to longitudinal stiffening of the band (22). The stiffening device is located on the table (14) of the banding device and allocated to the entry end (32) of a central longitudinal guide channel section (28), or may be provided on the exit end (34) of the channel. The stiffening device is for the V-form longitudinal profiling of the band, or its corrugated or knurled longitudinal profiling.
