Abstract (en)

[origin: EP1129950A2] The device has a gripping device (4) movable towards and away from the stack (8) for gripping a sack (5,9) and a conveyor (16) with at least one sack body support for insertion between the gripper when remote from the stack. At least one other conveyor (17) has at least one sack body support at a distance from that of the first for insertion between the gripping device and the stack.
