Abstract (en)
[origin: EP1129983A2] The vehicle has a drive axle (3) close to the load, a steering axle (4) remote from the load and a lifting device (10) that can be displaced in the longitudinal direction of the vehicle. A driver's position (7) is located near the steering axle and a platform (5) is formed between the axles. The lifting device is movably mounted on the platform.
