Abstract (en)

Adjustable mounting apparatus for sanitary fittings is comprised of three components, namely a pair of fixing brackets (2) and an adjustable retaining bar (4) all formed as plastics mouldings. Base plates (22) with apertures (6) enable the adjustable brackets (2) to be screwed onto a floor (18), and arrays of apertures (10) in upstanding bosses (28) enable the sanitary fitting to be screwed to the brackets (2) for a secure mounting of a sanitary fitting. <IMAGE>
