Abstract (en)

[origin: EP1132138A1] Shredder comprises a housing consisting of a lower part (2) and an upper part (4), a cutting device (6) with cutting rollers (6a, 6b), and switching and control devices. The upper surface of the housing upper part has a removable part. A feed shaft (8) is provided from the cutting device up to the upper surface of the housing upper part. The open region of the upper surface is covered by an attachment (11) whose lower surface is open. The inner chamber of the attachment and the feed shaft form a common receiving chamber. A slide (19) is integrated into the attachment.
