Abstract (en)

[origin: EP1132327A2] The drive for the rollers (22, 122) in the folding section of a web fed rotary printing press has a first driving gear (18) and a first driven gear (21) connected to the first roller (22) and a second driving gear (118) and a second driven gear (121) connected to the second roller (122). The individual rollers and their driving systems are contained in separate housings.
