Abstract (en)
[origin: EP1132548A2] Post foot comprises a connecting arrangement for connecting the foot to a post and a having a bearing surface facing upward, and a lower upright unit for connecting to a fundament. The upright unit has a centering pin (3) engaging in a connecting tube (1). Preferred Features: A single protruding shaft (D), preferably a wooden thread shaft for fixing to a wooden post, is provided in the center of the bearing plate (2).
