Abstract (en)
[origin: WO0032057A1] A continuous process for the manufacture of a fat-based heat-meltable confectionery product comprises the steps of introducing a fat-based heat-meltable confectionery mixture and water into a low-shear extruded mixer (8). The fat-based heat-meltable confectionery mixture and water are mixed as they pass through the mixer (8) to form a fat-based heat-meltable confectionery composition. The fat-based heat-meltable confectionery composition is formed into the fat-based heat-meltable confectionery product.
