Abstract (en)

[origin: WO0030054A1] The invention relates to a device and method for heating foodstuffs. Packaged foodstuffs are taken out of storage means (19) by the user, are removed from the packaging and are placed in the heater means (2). The user switches on the heater means, which are provided with release means which interact with payment means (20), and heating is enabled only after payment has been made.
