Abstract (en)

The middle beam element (15) has channels for the fluid and inlet and outlet supplies for the refrigerant. The middle beam element comprises two parts (1,2) that are arranged one on the top of the other and are connected together to form a channel, through which the refrigerant flows. Preferably, the two parts are bell-shaped and the channel is formed on both sides of the inner part with its surface is parallel to the thermally-loaded outer face.

Abstract (de)

Die Erfindung betrifft ein fluidgekühltes Mittelbalkenelement für mehrbahnige Verbrennungsroste, bestehend aus Kanälen für das Fluid, Zuführungen und Abführungen für das Kühlmittel, bei dem das Mittelbalkenelement (15) aus zwei übereinander liegenden, miteinander verbundenen, nach unten offenen Teilen (1, 2) besteht, die mindestens einen Kanal (a, b) bilden, durch den ein Kühlmedium strömt, und einen Mittelbalken (Fig. 1). <IMAGE>
