Abstract (en)
[origin: EP1139695A2] A domestic cooking appliance has an electronic indicator and/or operating device (7) that are visible and/or activated through a partially transparent plate for a glass-ceramic cool top platform. The indicator and/or operating device has an indicator element (9) and/or a touch-sensor operating element (10). A frame-type retaining part (11) fastens directly on an underside of the plate by means of a glued joint.
