Abstract (en)

[origin: EP1018325A1] The present invention relates to a human waste management device for babies, children or adults to be attached to the perianal or uro-genital area of the wearer, said device being provided with a visual inspection means. A preferred embodiment of the present invention comprises a window (46) in the garment facing portion (17) of the bag (11) to allow for visual inspection of the inside of the bag (11).
