Abstract (en)  
[origin: WO0043474A2] The present invention relates to surfactant mixtures, improved detergent and cleaning products containing particular types of alkylbenzenesulfonate surfactants.  
[origin: WO0043474A2] The present application relates to hand dishwashing detergent compositions containing modified alkylbenzene sulfonate surfactants (MABS). These MABS comprise a mixture of specific branched and non-branched sulfonate compounds, which are further characterised by a 2/3-phenyl index of 160-275.
