Abstract (en)

[origin: DE19902144A1] The piston has a lower part (3), which at least in the region of the boss (7), is made of forged steel. Below the boss, the lower part has a shaft extension (5), the external diameter of which, at least in the pressure-counterpressure direction, is roughly the same as the external diameter of the component (6), and which is welded or soldered to the component (6) with the boss.
