Abstract (en)
[origin: WO0131915A1] A video recording and playback apparatus comprises a broadcast receiver (10) arranged to receive broadcast video signals, a display (18) and a recorder and playback stage (16). The apparatus supports at least one further functionality, such as an Internet browser (26) and is arranged, on selection by or for the user of this functionality during playback of received video images by said display (18), to automatically pause the playback whilst starting or continuing to record the received video images.
