Abstract (en)

[origin: EP1145667A1] Bracket for fastening an outer panel to the door of a built-in refrigerator, provided to be attached to the inner wall of said panel and the upper portion of the door, and comprising at least a plane appendix extending orthogonally to said bracket, protruding from said bracket and capable of being temporarily associated to at least a template provided with two parallel surfaces, whose distance from each other is adjustable; these are connected to each other by an adjustment rod, and one of said surfaces, whose distance is adjustable, is provided with a slot-like aperture capable of engaging against said at least one plane appendix. Said two parallel surfaces are arranged on the opposite sides with respect to said adjustment rod. <IMAGE>
