Abstract (en)
In a poker game, two or more players play against the house, each player placing a first bet to enter the game. Two cards are then dealt face-down to each player and two cards are dealt face-down to the house. Three common cards are then dealt face-up. If the player decides to continue with the game on the basis of the two cards dealt face-down to him and the three cards dealt face-up, he then places a further "call" bet. Two further common cards are then dealt face-up. The game is decided by comparing the best hand of five cards from the two cards dealt to the player and five common cards with the two cards dealt to the house and five common cards, the higher ranking poker hand winning. <IMAGE>
