Abstract (en)
[origin: EP1146186A2] Lock has elements such as a lock catch (3) and locking pawl (4), a lock mechanism (5), a motorized theft protection drive (9) acting on a coupling lever (8), a motorized opening drive (12) acting on the locking pawl and a motorized central locking drive (13) for coupling/decoupling the outer door handle. The opening drive acts on the lever in an actuation direction and moves it into the coupled position when opening and raising the pawl.
