Abstract (en)

[origin: WO0027271A2] Cleaning compositions, pads, wipes, and implements provide effective cleaning of hard surfaces.

[origin: WO0027271A2] The present invention relates to cleaning compositions, pads, wipes, and implements useful in removing soils from hard surfaces. The cleaning pads and/or sheets (100, 200, 400) contain improved structure comprising apertured formed films, functional cuffs (417, 419), density gradients, adhesive scrubbing strips (430), and/or perfume carrier complex. The cleaning sheets (100, 200, 400) are designed so as to provide functional cuffs (417, 419). The present invention also relates to a cleaning implement (20, 120) comprising a handle (22) and, preferably, an improved removable absorbent cleaning pad (29). The present invention further relates to methods of using cleaning compositions, pads, sheets, wipes, and implements to clean hard surfaces.
