Abstract (en)
[origin: CA2311799A1] A system and method for utilizing (e.g., playing) data packets, e.g., audio, video, text, etc. are provided. A server arrangement of the system provides the data packets to a user computing arrangement of the system. A storage device of the user computing arrangement stores the data packets. The data packets are arranged in a predetermined order using the server arrangement and/or the user computing arrangement. The user computing arrangement executes a set of instructions to utilize the data packets in the predetermined order. A user of the user computing arrangement is prevented from modifying the predetermined order.
