Abstract (en)

[origin: US6496989B1] A toilet device comprising a toilet bowl which is provided with a seat, a flushing water inlet and an outlet for waste water. The toilet bowl is installed at a predetermined level above the floor. The distance and the position of the toilet bowl can be changed in relation to the floor by means of a device. The comfortable toilet device can also be used as urinal in a hygienic manner and can be equally used by different sized person, i.e. adults and children.
