Abstract (en)

[origin: WO0043277A1] A box (30) for packaging and/or transporting and/or storing products, in particular fruits and vegetables, comprises a foldable structure (18, 19, 20, 21) entirely made of solid-fiber board, said structure comprising a base or bottom (11), a pair of larger side walls (16, 17) and a pair of smaller side walls (12, 13), said structure being foldable from a completely open position to a flattened position and vice versa. The box further comprises a pair of reinforcing and supporting elements made of corrugated board (31, 40) externally joined to a pair of opposed side walls belonging to said structure. In this way the box can be easily stacked on other similar boxes.
