Abstract (en)

[origin: US2001028314A1] A method of transmitting a position of a traffic information, in particular a traffic obstruction on a traffic way in digital coding messages includes using for coding and decoding of messages transmitter- and receiver- side location data banks, coding a rough position of a traffic information by referencing to the traffic way and at least one location contained in the location data bank on the traffic way, and additionally to the location, transmitting a section part between the position and the location.
