Abstract (en)
[origin: WO0047420A1] The invention relates to a self-inking hand stamp in which inking is carried out by exertion of pressure from above. The stamp (1) comprises a support plate (5) for fixed stamp types (7). Said support plate presents a central opening (8) in which other stamp types (9) situated on a separate, supporting insert (11) are arranged. The insert (11) is joined to the support plate (5) via an adapter (12) into which the insert is inserted.
