Abstract (en)

[origin: EP1152507A2] The frame has transverse and depth profiles connected via corner joints to upper and lower frames joined near the corner joints by vertical profiles. At least the transverse and depth profiles of the upper and lower frames are made of triangular hollow profile. Each corner joint has a corner part and two plug-in fittings for mounting triangular transverse and depth profiles. Vertical profiles have attachments for fixing to corner parts. The frame has transverse (2) and depth (3) profiles connected via corner joints (5) to an upper and a lower frame and vertical profiles (4) joining the upper and lower frames near the corner joints. At least the transverse profiles and the depth profiles of the upper and lower frames are made of triangular hollow profile. Each corner joint has a corner part and two plug-in fittings (7) for mounting triangular transverse and depth profiles. The vertical profiles have attachments (8) for fixing to the corner parts.
