Abstract (en)
A table (1) comprises a lower frame (2) and a table plate (3). The table plate consist at least partially of a mineral or metallic material. Heating elements (4) are provided which can be integrated into the table. The material of the table plate is granite. The heating elements can be integrated into the table plate and the lower frame. The heating elements are tubes through which fluid flows that is suitable for the output of heat. The heating elements are also electrical ones, which can output heat on the application of a voltage. The heating elements are connected to a control electronic unit.
