Abstract (en)  
[origin: EP1153716A2] The cutting plate for a forming press has a support plate (1) on which is positioned a cutting sheet (7). The support plate has adjusters for the level of the sheet and peripheral retainers for the sheet. The support plate has, on at least one of its sides, a movable stirrup (15,16). The stirrup has one position in which it prevents movement of the sheet on the support plate and a second release position.
