Abstract (en)

This invention concerns a kitchen mixer tap for supplying mixed hot/cold water for domestic use and purified water for cooking purposes. It consists of a single body (11), a mixer valve (13) connected to supply pipes (17, 18) for the hot/cold water and a bolt-type valve (15) connected to a source of purified water, and it has two separate and independent supply mouths (23, 24) which extend from said body, a first mouth (23) for supplying the hot/cold water arriving from the outflow of the mixer valve, and a second mouth (24) for the supply of purified water arriving from the outflow of the bolt-type valve. <IMAGE>
