Abstract (en)

[origin: EP1155733A1] Homogenizer comprises a rotor (3), a stator having concentric teeth (4, 5, 7, 8), and devices for separately introducing two materials in the homogenizer inlet. Preferred Features: Radial inner feed devices (13) are connected to the homogenizer via the rotor teeth. The rotor additionally has pump blades which extend radially within and also outside of the first rotor teeth (4).
